PRESS RELEASE

FOR IMMEDIATE RELEASE

SteriDERM USA Launches Official Instagram and LinkedIn Pages

Aubrey, TX — November 5, 2026 — SteriDERM USA, the exclusive North American partner of Laboratoires StériDERM Paris, today announced the launch of its official Instagram and LinkedIn pages. The new channels give licensed medical aesthetic practitioners in the United States a direct way to receive product updates, clinical insights, treatment protocols, and professional education on Laboratoires StériDERM's sterile, 100% biologically active serums and microneedling tools.

"These pages extend the professional online presence we established with steriderm.us earlier this year," said Marina Nechepurenko, Managing Director of SteriDERM USA. "Practitioners can now follow practical information and scientific updates on the platforms they already use."

Official channels:
Instagram: instagram.com/steriderm.usa
LinkedIn (SteriDERM USA): linkedin.com/company/steriderm-usa
LinkedIn (Marina Nechepurenko): linkedin.com/in/marina-nechepurenko-479194427

Laboratoires StériDERM's 2026 serums are sterile, preservative-free, and manufactured under EU GMP standards. Formulations contain pharma-grade hyaluronic acid, purified growth factors, peptides, PDRN, and DNA repair enzymes, and are optimized for professional microneedling. The line includes HyalPure™ Pro, Pro Rejuvenate™, Pro Boost™, the Pro Pen™, and sterile Pro Tips™ cartridges. All products are intended exclusively for licensed medical aesthetic practitioners.

Visit steriderm.us or email info@steriderm.us for product information or wholesale inquiries.

About SteriDERM USA
SteriDERM USA is the exclusive North American partner of Laboratoires StériDERM Paris, a French laboratory specializing in sterile, biologically active serums and precision microneedling tools for licensed medical aesthetic practitioners. All products are produced under EU GMP standards.
